

Law Enforcement and Private Security Evaluation and Consulting

The purpose of this service is to provide feedback from a qualified and experienced outside source with the goal of identifying strengths or areas to sustain, as well as highlighting areas to improve upon. This this evaluation does not grade success or failure within the client's team or agency, but will categorize tactics, techniques and procedures consistent with acceptable industry standards, while also providing actionable recommendations to aid in further advancement of the client's team or agency.

This service will include an evaluation of leadership, training, equipment, personnel, trade doctrine and knowledge and a summary of the evaluator's qualifications, training and experience.
